

SMART
Education solutions

**Make class time
quality time ★**

Connect any classroom with SMART

SMART solutions are designed for active learning. Our software and hardware connect students to create a truly engaged learning environment wherever they are.

When you choose SMART for your classrooms, you get technology that works on its own and with existing platforms such as Microsoft and Google.

So teachers can spend more time teaching and less time figuring out new complicated tools, signing into endless platforms and breaking lesson flow.

Connections that matter

At SMART, we're on a mission to pioneer technology to help teachers and learners make authentic, meaningful connections. We believe these are the connections that matter and that inspire greatness.

Explore stories of teachers, students and school communities around the globe connecting through the power of technology to see the real impact of choosing SMART.

The world's ONLY interactive technology for true student collaboration

Only SMART displays with iQ enable multiple users to intuitively write, erase, touch, and gesture at the same time, across platforms and applications, without interfering with another's tool choice.

That's ALL interactions—not just “pen and touch” like the other guys.

The effortless choice for educators and IT professionals

SMART provides all the services you need to save time and adoption pains: exceptional ease of use, built-in security, automatic OTA updates, and extensive support.

Quality that saves time

From seamless installation to “walk up and teach” ease of use, IT Managers and teachers save time for what matters most.

Quality that lasts

SMART Boards are built to last, and with OTA and appliance based upgrade paths, your displays stay up to date and relevant.

Quality that you can trust

We take security seriously. Our secure iQ user profiles, NFC sign-in, and remote management options give you the peace of mind you need.

Blend physical and digital worlds

Turn static lessons into immersive learning experiences with SMART's Tool Explorer technology. Give students the ability to make their mark using physical, programmable stamps.

Performance like you've never seen before

Featuring optically bonded glass, the RX series offers the most-precise inking experience yet. RX series effortlessly integrates with student devices and comes packed with built-in tools like digital manipulatives for quality collaboration and brainstorming.

Security meets convenience

With NFC and QR-based sign-in options, say hello to a secure, convenient log-in and enjoy a personalized user experience with direct access to your cloud storage.

Explore what's possible

Built to evolve around your needs, the SMART Board® RX series interactive display is also the **only** display on the market that offers user-programmable tools.

Next-level engagement starts here.

Now with direct access to Google Play, Google Chrome and other Google platform apps with Google EDLA certification.

Hardware features:

- 65" | 75" | 86"
- 4K UHD LED screen with 50,000 hours lifespan
- Optically bonded anti-glare and anti-fingerprint heat-tempered glass
- Up to 40 touchpoints
- 2 x multi-color stylus
- <4ms response time
- 2x 20W speakers, 1x 15W subwoofer
- Integrated linear 8-microphone array
- Ports for HDMI, USB-C, USB-B, USB-A, VGA

Software features:

- Embedded iQ4 computing experience
- Android 13 with Google EDLA
- Screen sharing
- Chrome web browser
- Cloud storage access
- Personalized homescreen
- SMART Notebook
- SMART Ink
- SMART Remote Management
- Templates, graphic organizers, manipulatives, and teaching tools
- Split screen and picture-in-picture

Explore the
RX series

Powered by iQ

Easier workflows for educators, a feature-rich whiteboard, built-in tools and resources and student device integration—all designed to save you time and offer a personalized user experience.

iQ embedded computing puts everything teachers need to confidently teach at their fingertips, regardless of their tech comfort level.

iQ at a glance

- Native access to Google Play
- Built on Android 13—with automatic OTA security updates & feature upgrades
- Sign-in made secure and convenient via NFC card reader or QR code
- Personalized quick-launch home screen
- File library with direct access to Google Drive, OneDrive and Lumio
- Split screen mode and picture-in-picture

Engage in more ways, both in and out of the classroom

This is so much more than screen sharing. SMART displays with iQ allow for whole-class participation, truly active learning and a level of student collaboration that you just haven't seen before.

Broadcast live whiteboard to unlimited* devices

Collaborative student tools:

- 2-way annotation
- Ink and text tools
- Move and resize objects

The “walk up and teach” whiteboard

Built-in content and activities make it easy for teachers to add interactivity and engagement on the fly—even if they've never used a SMART Board.

- Import multi-page PDFs effortlessly
- Markup web browser or apps, import, and keep editing!

Built-in teaching tools for any subject:

- Integrated video and image search
- Graphic organizers
- Digital manipulatives & interactive backgrounds
- Collaboration activities for student devices
- Freeform & categorized brainstorming
- Measurement tools
- Classroom tools like timers and spinners

The game-changer

We've changed the game with the MX Series, a display that offers value and capability that our competitors just can't touch.

Discover why it's the smart choice for IT professionals.

Hardware features:

- 55" | 65" | 75" | 86"
- 4K UHD LED screen with 50,000 hours lifespan
- Up to 20 touchpoints
- <8ms response time
- 2x 20W speakers for sizes 65" and up
- Integrated linear 6-microphone array
- Ports for HDMI, USB-C, USB-B, USB-A, VGA

Included accessories:

- Pens (x2)
- Remote control

Software features:

- iQ embedded experience
- Android 11
- Screen sharing
- Web browser
- Cloud storage access
- Personalized home screen
- SMART Notebook
- SMART Ink
- SMART Remote Management
- Access to templates, graphic organizers, manipulatives, and teaching tools
- Split screen

Security features:

- Integrated NFC reader
- SMART ID cards x2
- Screen lock
- Personalized secure SMART account

Experience true multi-user touch and ink

Make room for everyone with the only touch tech on the market that lets students write, erase, touch, and gesture at the same time.

The MX series intuitively recognizes what tool you're using, and maintains your pen choice across files and apps, making it effortless for teachers and students to switch between programs.

Easy for teachers, exciting for students

Built-in activities and teaching tools make it easy for teachers to add interactivity and engagement on the fly—even if they've never used a SMART Board® before. And the options are endless when it comes to student engagement. SMART displays with iQ allow for whole-class participation, truly active learning and a level of student collaboration that you just haven't seen before.

Built to last

Packed with future-facing technology specifications to support the greatest ease of use, longevity, and the widest variety of implementation needs.

Explore the MX series

100% of final assembly, test and packaging done with renewable power

Interactivity you can trust at a price you'll love

The SMART Board GX series provides all the technical features to get started with interactive learning, without sacrificing value, security, and reliability.

Experience the SMART difference

The GX series interactive display gives you all the essential teaching tools, plus quality you can trust, at a price that will surprise you.

Enable students to write, erase, touch, and gesture at the same time without interfering with each other's tools.

PLUS:

- The GX V3 is on average 53% more energy efficient than average competitor boards
- 100% of final assembly, test and packaging done with renewable energy

Up to 40 continuous touch points:

- Write, touch, gesture
- Palm erase
- Pen, touch AND eraser differentiation
- ENERGY STAR certification
- Ecodesign compliance
- Backed by SMART warranty
- Pens x2

Learning software teachers love

FREE with no subscription required!

SMART Ink

Superior digital ink that behaves how you expect and doesn't interfere with your teaching. SMART Ink is the ONLY inking experience on the market that really is as easy as putting pen to paper:

- **No overlays:** Write and navigate within a document at the same time
- **Intelligent activation:** Just pick up a pen and write
- **Flexibility:** Write, move, resize, and use ink-to-text in any application
- **Easy saving:** Save your ink into PDF and Microsoft Office file formats

SMART Notebook

Optimized for SMART Board interactive displays, award-winning SMART Notebook is FREE learning software that helps you create dynamic, interactive lessons that encourage active learning.

Enable hands-on learning in a digital environment no matter what you're teaching, increasing student engagement and knowledge retention.

- Tools to help focus student attention like spotlight, screen shade, and Magic Pen with disappearing ink
- Simple and intuitive design for Mac and Windows
- Thousands of free, ready-made lesson resources from SMART Exchange

Hardware features:

- 65" | 75" | 86"
- 4K UHD LED screen with 50,000 hours lifespan
- Up to 40 touchpoints
- <8ms response time
- 2x 20W speakers
- Ports for HDMI, USB-C, USB-B, USB-A, VGA

Software features:

- Android 11 with a migration option to Android 13
- Screen sharing
- Web browser
- Cloud storage access
- SMART Notebook
- SMART Ink
- SMART Remote Management (SOLD SEPARATELY)
- Access to interactive widgets
- Split screen and picture-in-picture

Built for environmental sustainability

SMART displays have a seriously long lifespan

With over-the-air updates, upgradable computing modules, and rigorous Accelerated Life Testing, SMART helps maximize product lifespan and minimize hardware replacement.

Shipping and packaging that's recyclable and fuel-efficient

Minimize the carbon footprint of your technology purchase with SMART's recyclable packaging that has been optimized and redesigned to fit up to 30% more products into shipping containers—now that's a shift you can feel good about!

An ethically-sourced supply chain, from top to bottom

SMART sources components and materials from companies that meet our high standards for human rights, ethics, and environmental responsibility.

The details that make a difference with energy

ENERGY STAR® certified and EcoDesign compliant.

Energy-saving features:

- Proximity sensors
- Ambient light sensors adjust brightness for your environment
- User-adjustable sleep timing and power-saving settings
- OPS upgradable embedded computing
- Automatic OTA updates for new features and security updates

Our certifications:

Energystar | EcoDesign | WEEE | RoHS | LEED | ISO 14001

Exceptional privacy and security

Anchored in privacy and security, our iQ embedded computing ensures that the highest security standards are available.

Displays with iQ enjoy:

- Technical security walls built to mitigate security threats to standard Android devices
- Automatic OTA security patches and updates
- User profiles that leverage Google and Microsoft for secure, self-serve authentication
- Support for security certificates for authenticating and accessing networks
- Feature lock-down (via SMART Remote Management)

Customer privacy comes first:

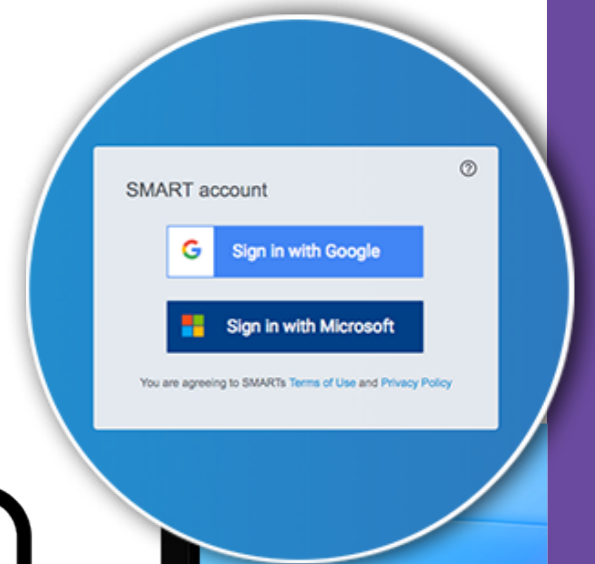

Trusted data storage and processing

- Customer data is hosted using best-in-class Amazon Web Services and Google Cloud data centers
- Every data center is ISO 270001 and SOC 2/3 certified

GDPR compliant

- Compliant with all local and federal legislation
- European customers can choose to have product user data stored and processed in the EU

SMART Document Camera 650

Connect digital learning to the physical world in high definition. Capture, share, and connect both in-person and remote students to tangible concepts. Perfectly integrate physical notes into SMART Notebook lessons. A remote control makes the capture, recording and broadcast of lessons simple.

- Ultra HD 4K resolution with auto-framing
- Compatible with all mic-array enabled SMART interactive displays
- Remote control included

SMART Podium 624

Easy to use, deploy and support, the SMART Podium helps lecturers and assembly presenters communicate ideas more effectively.

- Compatible with any projector, display, and computer
- Markup static content when presenting, write and save notes
- Use presentation tools to guide students through key concepts and improve comprehension

Accessories

- 4K Ultra HD, 13 MP camera
- Seamless integration with iQ whiteboard
- 10X optical zoom, 230X total zoom
- Built-in microphone
- Wired or dual-brand Wi-Fi
- Peer-to-peer wireless connectivity
- HD video conferencing (UVC compliant)
- 5-year warranty

SMART Camera UHD 120 Webcam

Provide a rich, immersive visual experience designed for the needs of the modern classroom. The SMART Ultra HD Camera 120 mounts flush to the top of the interactive display bezel for effortless remote and hybrid learning.

- 24" HD touch screen with cordless, battery-free pen and adjustable stand
- Plug & Play support for Windows Ink
- Works with your conferencing solutions
- Includes SMART Ink for Windows and Mac OS

Get more impact from your student devices

-  **Flexible learning**
 Lumio lets teachers combine and edit different file types into their lessons, adjust lesson delivery on the fly with flexible pacing to adapt content to student needs.
-  **Meaningful collaboration**
 Shared workspaces and flexible ways to group students make it easy for students to collaborate with each other in dynamic ways. Teachers can track student contributions to monitor progress and provide feedback in real-time.
-  **Game-based and active learning**
 Lumio comes equipped with tons of customizable game templates, graphic organizers, and digital manipulatives, all of which students can access at home. It's easy to make learning fun with Lumio.
-  **Aligned to best practices**
 Lumio gives teachers the tools they need to implement active learning, student wellbeing, and a student-centered, personalized learning approach.

Light up learning

Lumio offers more ways to effortlessly make learning fun and engaging on student devices.

Save costs and simplify your tech approach with a tool that lets teachers do it all—plan, evaluate and deliver fun, engaging lessons—in one powerful web-based learning platform.

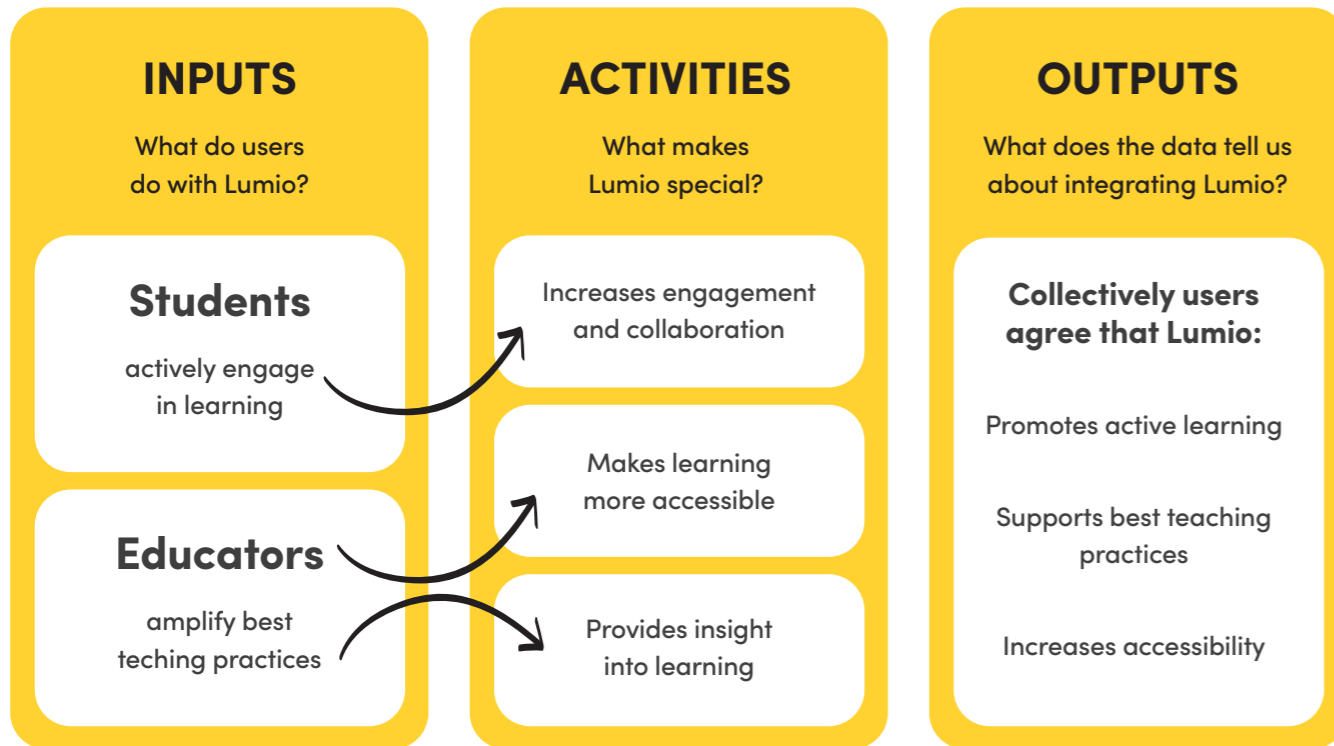

Loved and trusted by over 1.3 million teachers worldwide

“With Lumio, we’re able to lean into our district’s goal of leading with students at the forefront of education. And that’s how it should be.”

Diane Harazin
Supervisor of Instructional Technology

Specifically designed to improve student outcomes—it's not just fun, it works!

See the full Lumio logic model 

Together, step by step

With professional learning that moves beyond features and functions, we make it easy for your teachers right from the first click.

-  **Live and on-demand webinars**
Learn how to create robust lessons and activities with Lumio.
-  **Badging and certification**
Educators can engage in exciting self-paced coursework to build their Lumio skills and boost student engagement.
-  **Customized professional learning**
Enhance teaching practices and improve student outcomes with live training designed for you.

Why educators love Lumio:

- ✓ Import and combine existing files (PDFs, Google Slides, PowerPoint, and Notebook)
 - ✓ Thousands of ready-made lessons and resources
 - Game-based activities and team quizzes
 - Graphic organizers
 - Digital manipulatives
 - ✓ Convert any resource into a digital handout
 - ✓ Small-group and whole-class collaboration
 - ✓ Teacher and student pacing
 - ✓ Formative assessments and feedback tools
 - Polling and class discussions
 - Real-time class and individual student data
 - ✓ STEAM tools like Desmos, Equation Editor and PhET
 - ✓ Dedicated spaces for curating and sharing lessons with colleagues
 - ✓ Access anywhere, on any device with a web browser
- ...and all the tools needed to create an engaging learning experience from scratch!

Why schools and districts love Lumio:

- ✓ Amplifies best teaching practices and actively engages students
 - ✓ Increases the impact of student devices
 - ✓ Supports instructional consistency and more efficient workflows
 - ✓ Integrates with Google and Microsoft
 - ✓ Easy deployment with OneRoster
 - ✓ Earned third-party certification from Digital Promise for Research-Based Design
 - ✓ Exceptional privacy and security, GDPR, COPPA, and FERPA compliant
- ...and all at a much lower price than comparable options!
